Package Selection & Purchase	Staff Registration	Appointments	Weekly Plan View	KYC Review
Treatment Plan View	Inventory & Stock	Consultation (SOAP)	Patient Hub	Audit Log
Daily Check-in / Mood	Products & Packages	Vitals Capture	Appointments	Analytics
Self-Help Library	Orders & Delivery	Patient Charts		Inventory View
Product Shop & Orders	Announcements			
Report Issue / Feedback	Audit Log			
Profile Management				

SUPABASE (PostgreSQL) — Auth · Database · Storage · Realtime

KYC FLOW — Know Your Customer

Patient submits KYC → Staff reviews → Approve / Reject → Access granted

KEY RULES:

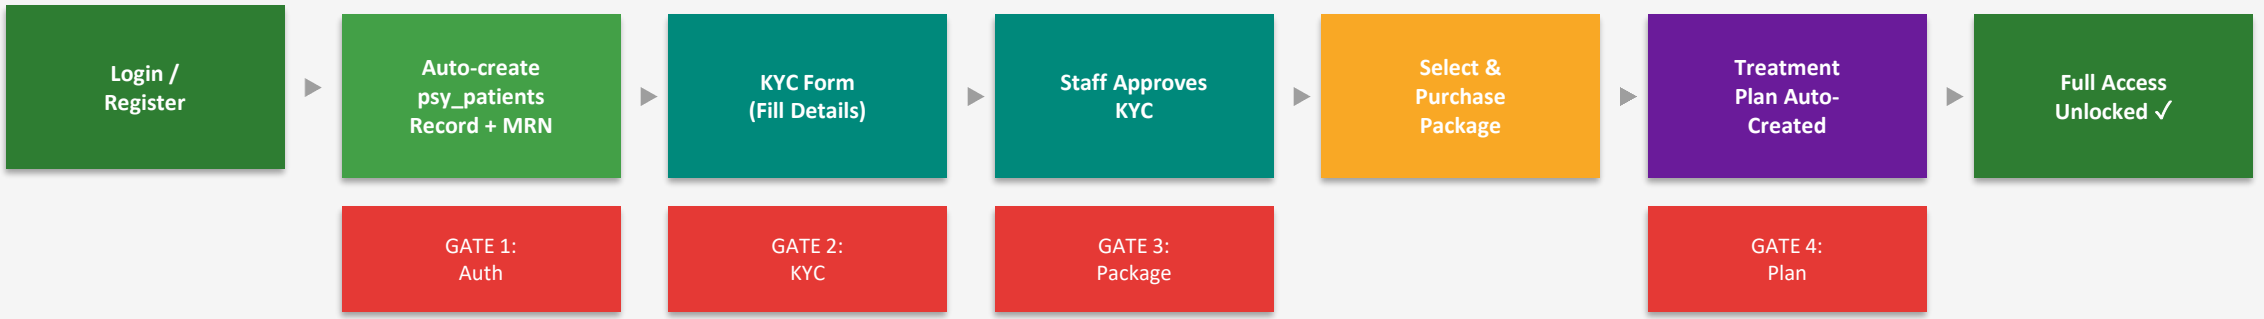

- Self-registered patients → MUST have KYC approved before accessing Package, Plan, Library, Coaching
- Staff-created patients → auto-approved (pre-vetted)
- KYC submission stored in: psy_kyc_submissions | Status: pending / approved / rejected
- Patient record (psy_patients) updated with KYC data upon approval | Export to Excel / Print available

PATIENT

STAFF (Admin/Doctor

PATIENT ONBOARDING FLOW

From first login to full system access — 4 gates must be passed

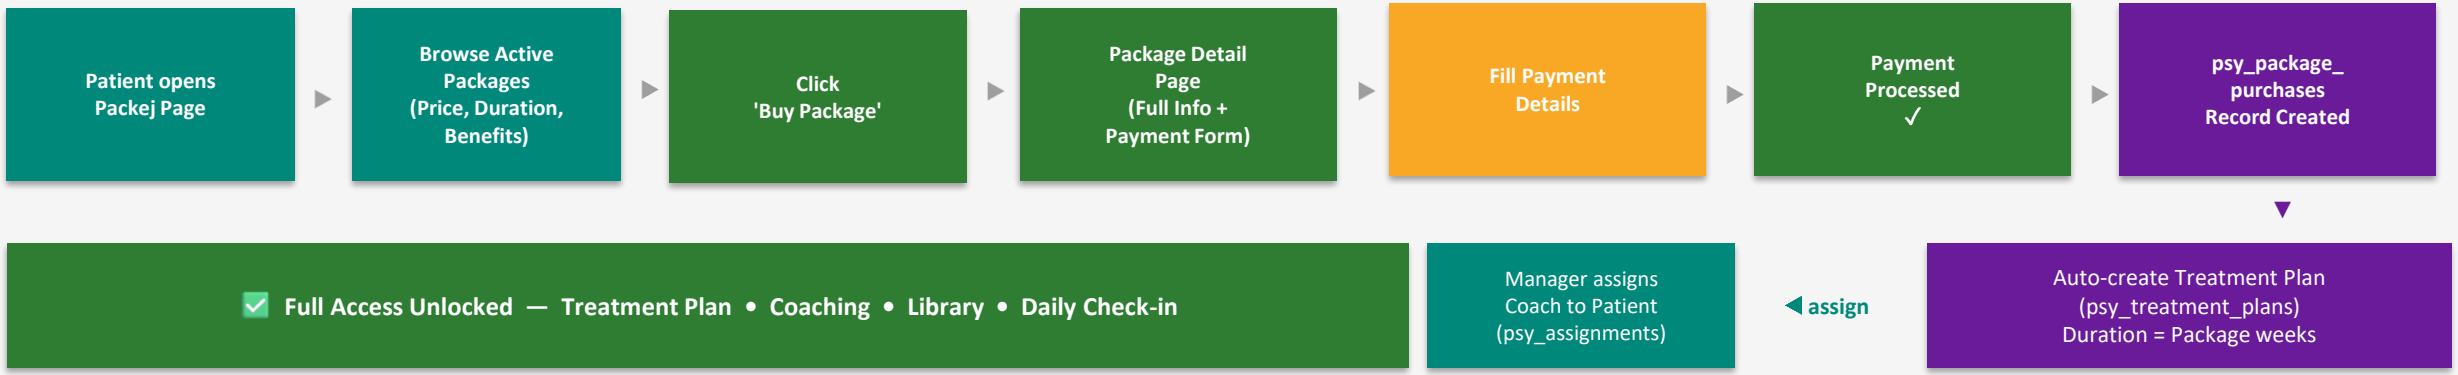

🔒 LOCKED — No access to Plan, Coaching, Library, Shop

✅ UNLOCKED — Full access to all patient modules

Module	Auth	KYC OK	Package Active
Dashboard	✓	-	-
KYC Form	✓	-	-
Package / Shop	✓	✓	-
Treatment Plan	✓	✓	✓
Coaching Library	✓	✓	✓
Daily Check-in	✓	✓	✓

PACKAGE PURCHASE & PLAN ACTIVATION FLOW

Patient selects a treatment package → payment → plan auto-created → access unlocked

PACKAGE LIFECYCLE

DATABASE TABLES: psy_packages (definitions) • psy_package_purchases (patient subscriptions + expiry) • psy_treatment_plans (auto-created) • psy_payments

KEY RULES:
- Patients MUST have an active, non-expired package to access Treatment Plan, Coaching, and Library.
- Without active package → 'Package Required' lock screen with CTA to select package.
- package_expires_at tracked per purchase — expiry auto-enforced on each page load.

TREATMENT SESSION LIFECYCLE

From appointment booking to session completion, coaching notes & risk escalation

Doctor/Patient opens Appointments ▶ Doctor Books Session (Date, Time, Week #) ▶ psy_appointments + psy_plan_weekly_progress created Status: BOOKED ▶ Notification sent to Patient ▶ Patient logs Daily Check-in before session (Optional) ▶ SESSION OCCURS (Google Meet or In-person) ▶ Coach fills Coaching.html post-session

▼

SESSION STATUS TRANSITIONS

BOOKED ▶ HADIR (Attended) ▶ CANCELLED ▶ RESCHEDULED

BOOKING RULES: Closed Mon & Tue | Slots: 8:30, 10:00, 14:00, 15:30
Reschedule requires 1-2 days advance notice

POST-SESSION: COACHING NOTES & RISK ESCALATION

Select Patient & Session Date ▶ Record Coaching
- Pillar Focus
- Mood Pre/Post
- Notes & Goals
- Homework

▶ Status: Completed ▶ OR Escalate Risk? ▶ Create Risk Alert (HIGH/CRITICAL) ▶ psy_coaching_sessions Record Saved ▶ Patient views Session History on Plan.html

DATABASE: psy_appointments • psy_plan_weekly_progress (status, score, meet_link, notes) • psy_coaching_sessions • psy_risk_alerts

BPS-S TREATMENT PILLARS (coaching & plan structured around 4 pillars):
- BIOLOGICAL — physical health goals (sleep, exercise, medication compliance)
- PSYCHO — psychological goals (CBT homework, mood tracking, thought records)
- SOCIAL — social engagement goals (relationships, community activities)
- SPIRITUAL — spiritual practices (solat, zikir, Quran reading, breathing)

DAILY CHECK-IN & MOOD TRACKING FLOW

Patient logs daily health data → visualised on dashboard → reviewed by coach

Patient opens Dashboard → Sees 'Check-in Today' CTA → Opens checkin.html → Fill Mood Score (1-10) 😊 → Fill Energy Level (1-10) → Sleep: Hours + Quality → Symptoms (multi-select) → Activities & Notes (submit) ▼

psy_daily_ checkins Record Saved → Dashboard Updates: Today's Mood → 7-day Mood History Chart Updates → Coach reviews on Patient Hub (coach view) → Risk trigger: Mood < 3 for 2 days → Alert

SYMPTOMS (Multi-select)

Headache	Dizziness	Anxiety	Mood Swings
Insomnia	Fatigue	Chest Pain	Loss of Appetite

ACTIVITIES / PRACTICES (Multi-select)

Zikir	Solat	Exercise	Healthy Diet
Breathing	Quran	Social Activity	Journaling

DATABASE: psy_daily_checkins (mood_score, energy_score, sleep_hours, sleep_quality, symptoms[], activities[], notes, checkin_date) • psy_plan_check_ins

VISUALISATION ON DASHBOARD:
- Today's mood emoji card (color-coded: green ≥7, amber 4-6, red ≤3)
- 7-day mood history bar chart • Weekly energy trend • Sleep quality indicator • Attendance/compliance summary

INVENTORY MANAGEMENT & REQUEST APPROVAL FLOW

Staff requests stock replenishment → Admin approves → Stock updated automatically

STAFF

Open Inventory.html → See Item List + Stock Levels + Low Stock ⚠ → Identify Low Stock Item → Click 'Request Stock' Button → Fill Request: Qty + Unit Price → Submit Request

▼

psy_inventory_requests Created Status: PENDING

ADMIN

Admin opens Inventory.html → Sees 'Pending Requests' Section → Reviews Request (Item, Qty, Cost, Requested by) → Decision: APPROVE or REJECT?

APPROVE ✓ Status: Approved → Stock Updated += Qty

▼

REJECT ✗ With Reason → Notification to Staff

DASHBOARD STATS (live)

- Total Items in Stock
- Low Stock Alerts ⚠
- Pending Approvals
- Items Below Min Threshold

DATABASE: psy_inventory_items (name, category, current_stock, min_stock, unit_price) • psy_inventory_requests (status: pending/approved/rejected)

E-COMMERCE: ORDER PROCESSING & DELIVERY FLOW

Patient shops → checkout → staff fulfils → delivery tracked → patient confirms receipt

DOCTOR CONSULTATION (SOAP) & VITALS CAPTURE FLOW

Doctor conducts clinical review, records SOAP notes and vital signs

S — Subjective

- Chief Complaint (CC)
- History of Present Illness (HPI)
- Patient-reported symptoms
- Duration & severity

O — Objective

- Latest vital signs
- Physical examination findings
- Lab results
- Observations

A — Assessment

- Diagnoses (ICD-10 codes)
- Clinical reasoning
- Differential diagnoses
- Risk level assessment

P — Plan

- Medications (Rx)
- Lab orders
- Follow-up timeline
- Referrals
- Patient instructions

Save as DRAFT (Editable) ▶ **Sign & Save (Finalises record)** ▶ **psy_soap_notes Record Created status: draft/signed** ▶ **Linked to Patient Chart (psy_patients)**

VITALS CAPTURE FLOW (Doctor)

Open vitals.html ▶ **Select Patient & Date** ▶ **Enter Vitals: BP, HR, Temp Glucose, Weight Height** ▶ **Add Notes** ▶ **Save Vitals ✓** ▶ **psy_vitals Record Saved** ▶ **Visible in SOAP Objective Tab & Patient Hub**

DATABASE: psy_soap_notes (subjective, objective, assessment, plan, status: draft/signed, signed_at) • psy_vitals (bp_systolic, bp_diastolic, heart_rate, temperature, blood_glucose, weight, height)

STAFF ROLE-BASED ACCESS CONTROL (RBAC) MATRIX

Which modules each staff role can access — enforced on every page load

	Admin	Doctor	Coach	Manager
